

NVR Referrals Overview

Why refer clients to us?

- The referring professional can:
 - Access a free 1-hour consultation with the referral team
 - Ascertain the appropriateness of NVR for the family
 - Gain a better understanding of how the family will be supported
 - Understand how further NVR support is necessary
- The referred family can:
 - Access a free 1-hour consultation with the referral team
 - Discuss the challenges faced by harmful behaviours
 - Explore how the approach may help repair relationships
 - Build on existing support networks to support longevity in NVR

What is in the package of support:

- Organisations and Agencies who refer to our service can be reassured the families receive the best possible support and guidance through the delivery of the NVR approach.
- Our referral pathway affords agencies / organisations that have been trained in NVR but cannot afford the time / space that the approach needs, for it to be implemented with specific families.
- Our team of highly skilled Accredited NVR Practitioners can work with families from an initial 3-month intervention to as long as is required, in some cases up to 12 months or more.
- The work with the family is regularly reviewed and this includes updating the referring professional with progress being made.
- Our practitioners can work closely with the child's school to build a support system to help increase attendance, reduce isolation, and increase self-esteem.
- As part of the intervention the practitioner coaches families to recruit and develop a network of support, which can reduce family isolation.

What do families get:

- Individual ongoing weekly support either face-to-face or online.
- Bespoke NVR intervention tailored to meet their needs.
- Regular check-ins between sessions via WhatsApp /emails

- Signposting to resources:
 - Blogposts
 - Parent Podcasts
 - Be part of a wider community of parents
 - Discover books to support the approach
- Explore how relationships can repair, rebuild, and reunite long-term.
- Techniques and strategies to reduce conflict in the home.
- Learn how to resist harm without losing presence.
- Grow parental agency to increase parental presence inside/outside the home.
- Explore how to support siblings and sibling reconciliation.
- Find new ways to communicate / interact / react to their child.
- Understand trauma responses and meet the child's unmet need.
