CPD-Accredited

NVR Workshops

All-inclusive Specialist Online NVR Workshops

Anxiety & OCD

Hosted by Dr. Warren Matofsky, this workshop will address the growing number of families who are impacted by the physical & psychological symptoms caused by Anxiety. In this lively workshop we will look at adaptations of NVR for this setting to help support families. You will receive access to PACMAN and lots more helpful resources.

The Couple Relationship - Half-Day (4 hours)

Hosted by Shila Desai & Vasiliki Loumpa. Attending to the couple relationship and the emotional attachment to one another is an essential component that is not often explored within the NVR field. We will explore ideas from Systemic Psychotherapy and Emotionally Focused Therapy and how they fit in with NVR practice.

Eating Disorders (ED)

Hosted by Shila Desai, Jill Lubienski &/or Luke Cousins, this lively workshop will bring rich thinking, discussion, stories and case examples and which will invite you to think of your own relationship to food, family and culture.

Neurodiversity & Learning Disabilities

Hosted by Dr. Hannah Moore, you will think about how NVR can help reframe narratives that are limiting within this population, building on strengths. We will think about how labels such as Autistic Spectrum Condition, ADHD and Learning Disabilities orientate the system.

Self-harm & Suicidal Ideation

Hosted by David Toland, this workshop will help to equip you with adaptations of NVR to support families who are impacted by Self-Harm and Suicidal Ideation. You will review case-studies, real-life scenarios and find new and innovative ways to support the families that you work with.

We have more workshops coming soon, subscribe to our monthly newsletter for exclusive offers and early access.

Parental Presence Outcomes Star

The first NVR-specific measuring tool

Are you using NVR (Non-Violent Resistance) with parents / carers in a clinical setting?

Are you interested in a way to measure the impact this approach has on the families you support?

If yes, then we're delighted to introduce you to the Parental Presence Outcomes Star; the first NVR-specific, collaborative outcome measure, part of the Outcomes Star suite of tools with training exclusively available through PartnershipProjects.

The Parental Presence Star was developed by PartnershipProjects, in collaboration with Triangle Consulting Social Enterprise. The process involved workers, managers and parents with lived experience from across the UK and beyond. The tool was piloted in 2023/24 after which the results were psychometrically validated.

Completing the Parental Presence Star is intended to be a helpful, engaging and empowering process that stimulates and focuses discussion and provides a useful, shared basis for an action or support plan. It is a flexible tool that relies on the skills of the professionals using it, as well as on a degree of understanding and trust between them and the parent. The Star is designed to be used one-to-one where there is support provided over a period of time. The aim is to have a genuine interaction and complete it collaboratively.

1 Looking after myself

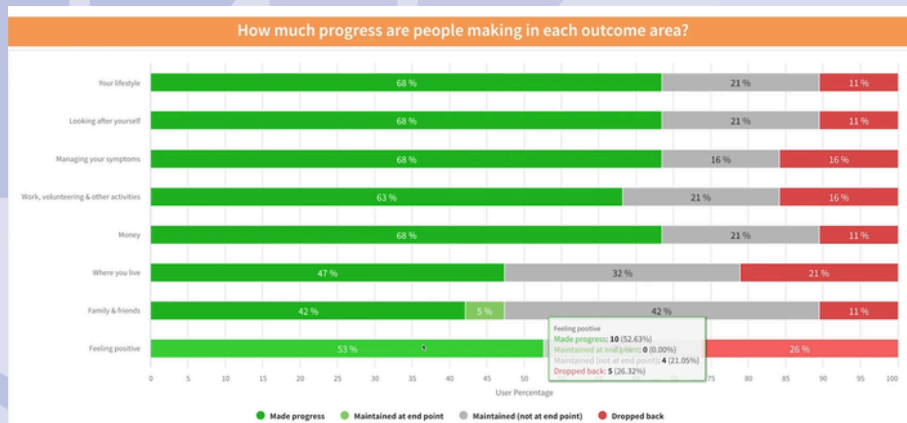

Your health, practical self-care, time for yourself, things that nourish you

- 5 I mostly manage to look after myself well enough
- 4 I'm getting more confident about looking after myself
- 3 I'm seeing some positive effects when I look after myself but there is a way to go
- 2 I don't have time or energy to look after myself but I'm starting to try a new approach
- 1 I don't have time or energy to look after myself just now. I haven't found an approach that works yet

You can find out more information via our website [here](https://www.partnershipprojectsuk.com), or email us: training@partnershipprojectsuk.com if you have any queries.

IMPORTANT: Please note that any individual or organisation that wants to use the Parental Presence Star must complete this core training and purchase a license from Outcomes Star. Details of the cost of the license can be found [here](https://www.partnershipprojectsuk.com).
